DIFFERENTIAL EQUATIONS

Volume 25, Numbers 1-12, 1989

(A translation of *Differentsial'nye Uravneniya*)

Engl./Russ.

Volume 25, Number 1, January, 1989

PARTIAL DIFFERENTIAL EQUATIONS

Asymptotic Estimates, in L_2, of Riesz Means of the Spectral Function of an Elliptic Operator - R. R. Ashurov 1 3

Solution of a Problem with a Directional Derivative for a Parabolic Equation, by the Boundary-Integral-Equation Method - E. A. Baderko 9 14

Analog of the Bitsadze–Samarskii Problem for Third-Order Parabolic-Hyperbolic Equation - D. Bazarov 15 21

Necessary and Sufficient Conditions for the Solvability of a Cauchy Problem for Some Classes of Nonlinear Evolution Equations - B. A. Bubnov 20 27

Stabilization of Means of a Solution of a Cauchy Problem for Hyperbolic Equations in a Space of Negative Curvature - V. N. Denisov 25 34

Spectral Approach to Asymptotic Problems in Diffusion - V. V. Zhikov 33 44

L_2-Solvability of Boundary-Value Problems for Equations of Mixed Type - N. Yu. Kapustin 39 50

Contribution to the Theory of Nonlocal Problems for Laplace's Equation - K. Yu. Kishkis 46 59

Summability of Spectral Representations Corresponding to a Nonself-Adjoint Schrödinger Operator. I - A. S. Makin 51 65

Construction of Stable and Self-Stabilizing Systems with Distributed Parameters - K. V. Mal'kov 58 74

Global Bifurcation of Solutions of Certain Nonlinearizable Eigenvalue Problems - A. P. Makhmudov and Z. S. Aliev 71 89

Distribution of the Spectrum of a Tricomi Problem for the Lavrent'ev–Bitsadze Equation - E. I. Moiseev 77 97

Inverse Initial-Boundary-Value Problems for Linearized Nonstationary Navier–Stokes Equations - A. I. Prilepko and I. A. Vasin 85 106

Contribution to the Theory of Equations of Mixed Parabolic-Hyperbolic Type with Spectral Parameters - K. B. Sabitov 93 117

Eigenvalues and Eigenfunctions of some Nonlocal Boundary-Value Problems - A. L. Skubachevskii 101 127

High-Order Elliptic Systems - A. P. Soldatov 109 136

Control in Nonlocal Boundary-Value Problems - V. N. Sushch 116 145

Solvability of a Characteristic Problem for Degenerate Second-Order Hyperbolic Systems - S. S. Kharibegashvili 123 154

Volume 25, Number 2, February, 1989

ORDINARY DIFFERENTIAL EQUATIONS

A Comparison Method, and Investigation of the Stability of Systems of Ordinary Differential Equations with Perturbations. II - O. V. Anashkin and M. M. Khapaev 133 187

Related Second-Order Linear Differential Equations - L. M. Berkovich 137 192

Nonnegativity of Cauchy's Matrix and the Stability of a System of Linear Differential Equations with Time-Lag - A. I. Domoshnitskii and M. V. Sheina 145 201

Linear Systems with Irregularity Sets with Total Measure - E. K. Makarov 151 209

Investigation of the Existence and Convexity of Limit Cycles, by using the Generalized Lyapunov-Function Method - Yu. V. Malyshev and V. P. Zakharov..... 154 212
Analog of a Hartman Theorem - D. D. Mirzov..... 157 216
Eigenvalues of Boundary-Value Problems. Transformations of Boundary-Value Problems into Boundary-Value Problems with Small Coefficients - V. S. Mokeichev..... 162 222
An A Priori Bound for the Length of a Closed Trajectory in the Plane - V. P. Nozdracheva..... 167 229
Exponential Separation, with Maximal Index and Uniform Strong Positivity, of a Family of Automorphisms of a Vector Fibering - M. I. Rakhimberdiev..... 171 234
Linearization of an Autonomous System in the Neighborhood of a Saddle-Point - V. S. Samovol..... 176 240
Singularly Perturbed Differential Equation with a Fredholm Operator Applied to a Derivative - V. A. Sobolev and K. I. Chernyshov..... 181 247

PARTIAL DIFFERENTIAL EQUATIONS
Third Boundary-Value Problem for Degenerate Linear Elliptic Equations - M. I. Aliev..... 191 259
Spatial Features of High-Mode Bifurcations of Two-Component Systems with Weak Diffusion - S. A. Kashchenko..... 193 262
Boundary-Value Problems for Third-Order Parabolic-Hyperbolic Equations with Noncharacteristic Type-Change Boundaries - M. Mamazhanov and D. Khalmuratov..... 200 271
Local Solvability of Some Multidimensional Inverse Problems for Hyperbolic Equations - V. G. Romanov..... 203 275
Homogeneous Keldysh–Sedov Problem for Multiply Connected Circular Domains, in the Muskhelishvili Class h_0 - A. S. Sorokin..... 210 283
Relations between Spheroidal Functions in Various Coordinate Systems - M. V. Fedoryuk..... 218 294

INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS
Generalized Hilbert Operator - I. K. Lifanov and L. N. Poltavskii..... 223 300
Solvability, in Closed Form, of a Class of Complete Singular Integral Equations - Nguen Van Mau..... 228 307
Solutions of a Class of Nonlinear Singular Integrodifferential Equations with Translation - R. Sh. Khusnutdinov..... 232 311
Asymptotic Bounds of Solutions of a Regeneration Equation - Z. B. Tsalyuk..... 239 320
An Integrodifferential Operator from Potential Theory - A. Yanushauskas..... 243 325

Volume 25, Number 3, March, 1989

ORDINARY DIFFERENTIAL EQUATIONS
Necessary Conditions for Optimization in Systems with Time-Lag, Containing the Derivative of the Control - L. E. Zabello..... 247 371
Discrete-Group Analysis of Ordinary Differential Equations - V. F. Zaitsev..... 254 379
Partial Localization of Limit Sets and the Asymptotic Stability of Nonautonomous Equations. I - L. B. Knyazhishche and N. A. Raptunovich..... 261 388
Spectral Analysis of Differential Operators with Periodic Matrix Coefficients - F. G. Maksudov and O. A. Veliev..... 271 400
Residue Expansion of a Solution of a Spectral Problem for a System of Ordinary Differential Equations - Yu. A. Mamedov..... 278 409
Necessary Conditions for Optimization in Nonsmooth Control Problems in which the Time is not Fixed - B. Sh. Mordukhovich..... 290 424

	Engl.	/Russ.
Relaxation Oscillations in a Duffing System - A. V. Osipov and V. A. Pliss	300	435
Application of the Lyapunov-Function Method in a Poisson-Stability Problem - N. S. Fal'ko	309	446
PARTIAL DIFFERENTIAL EQUATIONS		
Asymptotics of a Solution of a Singularly Perturbed Parabolic Problem in the Two-Dimensional Case - V. F. Butuzov and V. Yu. Buchnev	315	453
Partial Symmetries and Integrable Multidimensional Differential Equations - E. M. Vorob'ev	322	461
First-Order Partial Differential Equation with an Integral as a Coefficient - M. I. Imanaliev and Yu. A. Ved'	325	465
Smoothness of Pan'i Parabolic Potentials. I - L. I. Kamynin	335	477
Stabilization of Solutions of a First Mixed Boundary-Value Problem for a High-Order Quasilinear Parabolic Equation - A. F. Tedeev	346	491
Method of Investigating Regular Singularities of Partial Differential Equations - M. Utepbergenov	352	499
Pseudodifferential Equations in Functional Superanalysis. II. The Feinman–Katz Formula - A. Yu. Khrennikov	358	505
Letter to the Editor	366	546

Volume 25, Number 4, April, 1989

ORDINARY DIFFERENTIAL EQUATIONS		
New Frequency Criteria for Absolute Stability and Instability of Automatic-Control Systems with Nonstationary Nonlinearities - N. E. Barabanov	367	555
Divergence of Normalizing Transformations in the Case of a Real Noncoarse Focus - V. V. Basov	373	563
Boundary-Value Problem for Fourth-Order Ordinary Differential Equations - S. A. Bespalova and Yu. A. Klokov	381	573
Bounds for the Growth of Solutions of Differential Equations - K. Kh. Boimatov and P. I. Lizorkin	386	578
Uniqueness Theorems for Inverse Spectral-Analysis Problems for Sturm–Liouville Operators in the Weyl Limit-Circle Case - M. G. Gasymov and G. Sh. Guseinov	394	588
Central Index of a Linear System of Differential Equations - O. G. Illarionova	402	599
A Problem Concerning the Stability of Singular Points in the Plane, from the Point of View of Algebraic and Analytic Solvability - N. B. Medvedeva	407	605
Oscillation and Nonoscillation of Solutions of First-Order Linear Differential Equations with Deviating Arguments - V. A. Nadareishvili	412	611
Analytic Solution of a Linear Functional-Differential Equation with a Linear Argument Deviation - V. I. Rodionov	417	616
Normal Forms and the Regularization of Nonlinear Singular Perturbations of Evolution Equations - V. F. Safonov	426	627
Classes of Third-Order Systems with Quadratic Right Sides, with no Moving Critical Points - A. I. Yablonskii and A. F. Korzyuk	433	635
PARTIAL DIFFERENTIAL EQUATIONS		
Optimum Control of Loaded Linear Parabolic Equations - M. T. Dzhenaliev	437	641
Symmetrization of a Hyperbolic Equation - S. E. Zhelezovskii, V. F. Kirichenko, and V. A. Krys'ko	446	652
Smoothness of Pan'i Parabolic Potentials. II. Proofs of Smoothness Theorems for Direct Values of Pan'i Potentials - L. I. Kamynin	452	659

	Engl./Russ.	
Self-Oscillations of a Solution of a Class of Singularly Perturbed Boundary-Value Problems - E. P. Kubyshkin	464	674
K-Limits of Solutions of Second-Order Quasilinear Elliptic Equations - B. P. Kufarev, I. G. Nikulina, and B. V. Sokolov	473	686
Bounds of Green's Function and Solutions of a Second Mixed Problem for a Parabolic Equation - A. V. Lezhnev	478	692
Solvability of a Boundary-Value Problem for Hyperbolic Equations in Nonclassical Domains - M. E. Lerner	487	704
Expansions of Arbitrary Functions in Integrals using Spherical Functions - A. I. Moshinskii	497	716

Volume 25, Number 5, May, 1989

ORDINARY DIFFERENTIAL EQUATIONS		
Criteria for the Global Asymptotic Behavior of Stationary Sets of Differential Equation Systems with One Hysteresis Nonlinearity - N. E. Barbanov	503	739
Criteria for the Existence of Solutions, Requiring Separation of the Linear Part of the Boundary Conditions - S. A. Brykalov	512	749
Uniqueness of the Determination of Distortions of a Crystal Lattice by the X-Ray Diffraction Method in a Continuous Dynamical Model - M. V. Klibanov	520	757
Partial Localization of Limit Sets and the Asymptotic Stability of Nonautonomous Equations. II - L. B. Knyazhishche and N. A. Raptunovich	527	765
Unbounded Solutions of Second-Order Linear Differential Equations with Time-Lag - D. V. Paatashvili	536	774
Reduction of Linear Finite-Difference Equations to Differential Equations - R. A. Prokhorova	542	780
Pursuit Method in Linear Differential Games with Integral Restrictions on the Control - A. T. Rakhmanov	547	785
Center-Focus Problem for Analytic Systems with Null Linear Parts. I - A. P. Sadovskii	552	790
Solutions of an Emden–Fowler Equation - F. Zh. Sadyrbaev	560	799
Properties of Solutions of a Boundary-Value Problem Arising in Combustion Theory - B. L. Shekhter	566	805
PARTIAL DIFFERENTIAL EQUATIONS		
Smoothness of a Solution of Tricomi's Problem for Equations of Mixed Type - A. B. Bazarbekov	576	816
Spatial Analog of the Cauchy–Riemann System for Analytic Functions of Two Complex Variables - V. E. Balabaev	582	823
Uniqueness of a Solution of a Problem in the Wave Theory of a Mechanical Impulse - S. I. Gaiduk and G. M. Zayats	592	833
Boundary-Value Problems for Elliptic Systems in Domains with Piecewise-Smooth Boundaries - N. A. Zhura	597	839
Smoothness of Pan'i Parabolic Potentials. III. Proof of Smoothness Theorems for the Pan'i Parabolic Potential of a Simple Layer - L. I. Kamynin	602	843
Dual Methods for the Solution of Boundary-Value Problems for Systems of Elliptic Equations - V. F. Koshchii and A. I. Ropavka	619	861
An Initial-Boundary-Value Problem for a Degenerate Parabolic Equation with Variable Time Direction - T. P. Rudneva	625	867
INTEGRAL AND INTERGRODIFFERENTIAL EQUATIONS		
Contribution to the Theory of a Class of Linear Integrodifferential Equations - É. I. Grudo	633	876

	Engl.	/Russ.
Reduction Method for the Approximate Solution of Systems of Singular Integral Equations with Vanishing Symbols on a Closed Lyapunov Contour - V. A. Zolotarevskii	640	884
Approximate Solution of a Singular Integrodifferential Equation - I. N. Meleshko	644	888
Mutlidimensional Dual Convolution Equation and Its Conjugate - Yu. I. Cherskii	652	897

Volume 25, Number 6, June, 1989

ORDINARY DIFFERENTIAL EQUATIONS

A Topological Invariant in Pursuit Problems - P. A. Golovach	657	923
Construction of Multiple-Period-Increase Bifurcations for Solutions of Nonlinear Ordinary Differential Equations - V. I. Gulyaev, A. L. Zubritskaya, and V. L. Koshkin	662	929
Conservation of the Sign of Green's Function of a Two-Point Boundary-Value Problem for an n-th Order Functional-Differential Equation - A. I. Domoshnitskii	666	934
Control of Programmed Motion Through Only Some of Its Coordinates - R. G. Mukharlyamov	670	938
Examples of Perturbations of Invariant Manifolds - G. S. Osipenko	675	943
Center-Focus Problem for Analytic Systems with No Linear Parts. II - A. P. Sadovskii	682	950
Averaging Method in Some Boundary-Value Problems - A. M. Samoilenko and R. I. Petrishin	688	956
Existence of Nontrivial Solutions of a Boundary-Value Problem in Combustion Theory - B. L. Shekhter	696	964

PARTIAL DIFFERENTIAL EQUATIONS

A New Approach to the Investigation of Boundary-Value Problems with Generalized L_2-Solutions - N. Yu. Kapustin	706	975
Properties of Magnetic-Surface Structures in Plasma - L. M. Kovrizhnykh, D. P. Kostomarov, D. Yu. Sychugov, and S. V. Shchepetov	713	983
Nonlinear Diffusion and the Stratification Process - Yu. P. Krasovskii	719	989
A Problem in Moving Optimum Control for a Heat Conduction Process - A. D. Mamedov	724	994
An Inverse Problem for a Second-Order Differential Equation in Banach Space - D. G. Orlovskii	730	1000
Boundary-Value Problems for Degenerate Parabolic-Hyperbolic Equations - A. Sopuev and Dzh. T. Dzhuraev	739	1009
Dirichlet Problem for Second-Order Elliptic Equations in a Half-Space, in the Class of Functions with Polynomial Growth - N. E. Tovmasyan	746	1015
A Carleman–Vekua Equation with a Singular Point - A. Tungatarov	754	1024
Nonstandard Boundary-Value Problem Containing a Small Parameter - M. Yu. Yunusov	759	1028
Boundary-Value Problems for Elliptic Equations with Degenerate Orders - A. Yanushauskas	766	1035

Volume 25, Number 7, July, 1989

ORDINARY DIFFERENTIAL EQUATIONS

Properties of Green's Function of a Sturm–Liouville Operator and Their Applications - A. T. Bulabaev, M. Otelbaev, and L. A. Shuster	773	1107
Class of Inverse Boundary-Value Problems for Sturm–Liouville Operators - I. M. Guseinov and I. M. Nabiev	779	1114

	Engl./Russ.	
Uniform Bound of the Order of Associated Functions and the Distribution of Eigenvalues of the One-Dimensional Schrödinger Operator - L. V. Kritskov	784	1121
A Priori Boundedness of Derivatives for a Differential-Inequality System - A. Ya. Lepin	791	1129
Analytic Solution of a Problem in the Optimization of an Approach Process - A. B. Ovcharov	797	1136
Comparison Theorems for Equations on Graphs - Yu. V. Pokornyi and O. M. Penkin	802	1141
Classification and Properties of Solutions of the Equation $Ax' + Bx = f(t)$ - A. G. Rutkas	809	1150
Absolute and Uniform Convergence of Expansions in Eigenfunctions and Associated Functions of a Nonlocal Boundary-Value Problem of the First Kind - T. A. Samarskaya	813	1155
NUMERICAL METHODS		
Optimal Quadrature Formulas on Sets of Solutions of Boundary-Value Problems - R. M. Aliev	818	1161
Class of Numerical Methods for Solving Rigid Systems - V. V. Bobkov and P. A. Mandrik	826	1171
Iterative Reduction of a Mixed Boundary-Value Problem to a Dirichlet Problem - P. N. Vabishchevich	831	1177
Applicability of the Single-Particle Approximation in the Problem of the Evolution of Charged-Particle Beams in a Longitudinal Magnetic Field - S. A. Vavilov and D. A. Ovsyannikov	836	1183
Numerical Calculation of Temperature Waves with Weak Discontinuities, on Meshes with Dynamical Adaptation - V. F. Vasilevskii and V. I. Mazhukin	840	1188
An Approach to the Solution of Magnetohydrodynamics Systems of Implicit Difference Schemes - V. A. Gasilov	844	1193
An Implicit Difference Scheme for Problems in Gas Dynamics and Magnetohydrodynamics - V. A. Gasilov and S. I. Tkachenko	850	1200
Rate of Convergence of the Roté–Galerkin Method for a Nonclassical Differential-Equation System - S. E. Zhelezovskii, V. F. Kirichenko, and V. A. Krys'ko	857	1208
Numerical Methods for Problems in the Initiation of Chemical Reactions in a Gas by Light Impulses - I. G. Zakharov, Yu. N. Karamzin, S. V. Polyakov, and V. A. Trofimov	866	1219
An Approximate Method of Solving a Stationary Heat- and Mass-Transfer Conjugation Problem - M. I. Izteleuov and Sh. Smagulov	873	1227
Numerical Solution of a Partial Differential Equation System with a Small Parameter Multiplying a Derivative - N. I. Kozlov, A. I. Kondrat'eva, I. G. Krutikova, V. I. Pan'kov, and S. V. Rusetskii	878	1233
Accuracy of Difference Schemes for Quasilinear Elliptic Equations in a Rhombus, with Solutions from the Classes $W_2^k(\Omega)$, $1 < k \leq 4$ - V. L. Makarov and S. V. Makarov	884	1240
A Fourth-Order-Accuracy Scheme for a Spectral Problem for an Equation with a Mixed Derivative - V. G. Prikazchikov and Zh. P. Allanazarov	892	1250
Reciprocal Transformations and Their Invariants - E. V. Ferapontov	898	1256

Volume 25, Number 8, August, 1989

The Riemann Problem - N. P. Erugin	907	
ORDINARY DIFFERENTIAL EQUATIONS		
The "Freezing" Method for Nonlinear Equations - M. I. Gil'	912	1291

	Engl./Russ.	
A Nonlocal Boundary-Value Problem of the First Kind, with Both Differential and Finite-Difference Analysis - D. M. Dovletov	917	1297
A Hilbert-Type Inequality, for Odd and Even Functions, with Respect to a System of Eigenfunctions and Associated Functions of a Second-Order Differential Operator - Kh. M. Karov	925	1307
Stability of Functional-Differential Inclusions - A. A. Levakov	929	1312
Nonlocal Boundary-Value Problems for Ordinary Differential Equations - Yu. V. Pokornyi, K. P. Lazarev, and T. M. Gareeva	936	1321
Frequency Criteria for the Stability and Instability of Linear Periodic Systems - A. V. Savkin	945	1332
Asymptotics of the Spectral Function of a Discrete Operator - V. A. Sadovnichii, V. V. Dubrovskii, and A. V. Nagornyi	951	1340
A Variational Approach to Nonresonance Problems for Semilinear Equations in Hilbert Space - St. A. Terziyan	954	1344
Singular Differential Equation with a Small Parameter, in the Case of a Bounded Variable Operational Coefficient - V. I. Fomin	959	1350
PARTIAL DIFFERENTIAL EQUATIONS		
Nonlocal Boundary-Value Problem for Hyperbolic-Parabolic Equations - G. D. Karatoprakliev	963	1355
A Cauchy Problem for Evolution Equations of Fractional Order - A. N. Kochubei	967	1359
Behavior of Solutions of Some Semilinear Elliptic and Parabolic Equations - D. I. Kristev	974	1368
Mixed Problem for a Singular Equation of the Plate-Vibration Type - S. P. Lavrenyuk	979	1375
Lower Bounds of Green's Function for a Second-Type Mixed Problem for a Second-Order Parabolic Equation - A. V. Lezhnev	985	1383
Isolation of a Generalized Solution of a Cauchy Problem for a Gas-Dynamics Equation System without a Convexity Condition - G. N. Pazin	993	1394
A Riemann–Hilbert Boundary-Value Problem (L_2-Theory) - M. M. Sirazhudinov	999	1400
Optimal Control of Objects Described by Quasilinear Elliptic Equations - M. I. Sumin	1004	1406
Motion of a Perfect Fluid in an Unbounded Elastic Basin - A. Fragela	1013	1417
Limit Transitions in Optimal-Control Problems for a Fourth-Order Operator - A. M. Khludnev	1021	1427

Volume 25, Number 9, September, 1989

ORDINARY DIFFERENTIAL EQUATIONS		
Universal Optimal Strategy in a Linear Differential Game - N. D. Botkin	1029	1475
Cesari's Problem - E. V. Voskresenskii	1033	1480
Structure of a Stable Compact Invariant Set and of a Bounded Invariant Domain of an Autonomous Complex Analytic System - I. L. Zinchenko	1038	1485
Estimation of the Minimal Rank of Finite-Dimensional Perturbations of Green's Operators - G. G. Islamov	1046	1496
Generalized Eigenvalue Problems and Strongly Nonlinear Self-Oscillations - V. R. Kardashov	1052	1503
Controllability of Singularly Perturbed Linear Systems with Time-Lag - T. B. Kopeikina	1055	1508
Extension of Extremal Problems Related to Elliptic Control Systems - A. I. Korotkii	1065	1518
Upper and Lower Bounds of Solutions of Certain Classes of First-Order Differential Equations - G. S. Krechetov	1068	1523
Application of Theorems on Perturbations of Invariant Manifolds - G. S. Osipenko	1071	1526
Uniformly Coarse Sequences of Hill Equations with Periodic Coefficients - N. S. Fal'ko	1076	1532

	Engl./Russ.	
Reconstruction of High-Order Differential Operators - V. A. Yurko	1082	1540
PARTIAL DIFFERENTIAL EQUATIONS		
Boundary-Value Problems for the Two-Dimensional Wave Equation in the Characteristic Cone - A. B. Bazarbekov	1092	1551
Uniqueness of Solutions of Basic Problems in Elasticity Theory for Infinite Domains - T. V. Buchukuri and T. G. Gegelia	1096	1556
Cauchy Problem for Some Quasilinear Parabolic Equations not Solvable for the Time Derivative - A. L. Gladkov	1104	1565
Smoothness of Solutions of Irregular Equations - V. V. Kornienko	1110	1572
Solvability of the Inverse Problem of Finding a Source, Using Overdetermination on the Upper Base for a Parabolic Equation - V. V. Solov'ev	1114	1577
INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS		
Solution of Contact Problems in Creep Theory - Sh. A. Alimov and T. Sh. Shirinkulov	1120	1584
Solvability of Boundary-Value Problems for a Class of Integrodifferential Equations in the Plane - V. V. Vlasov	1124	1589
Contribution to the Theory of Volterra Equations - E. S. Zhukovskii	1132	1599
Cauchy Problem for a Singularly Perturbed Integrodifferential Equation with an Unstable Spectrum - L. I. Novakovskaya	1138	1606

Volume 25, Number 10, October, 1989

ORDINARY DIFFERENTIAL EQUATIONS		
Inequalities between Auxiliary and Central Indices - T. Sh. Abakirov	1143	1659
Necessary Conditions for the Consistent Behavior of the Leading Sigma-Indices of a Triangular System and Its Diagonal-Approximation System - E. A. Barabanov	1146	1662
Binary Algorithms for Control of a Class of Indeterminate Dynamical Systems with Time-Lag - S. V. Emel'yanov, S. K. Korovin, I. G. Mamedov, and A. L. Nersisyan	1154	1670
Second-Order Equations in Variational Derivatives - V. G. Zadorozhnii	1162	1679
Invertibility of Linear Differential-Difference Operators in Some Spaces of Functions on the Real Line - Yu. I. Zubko and V. M. Tyurin	1166	1683
Asymptotic Optimization of Singularly Perturbed Linear Equation Systems - A. I. Kalinin	1170	1687
Asymptotic Stability of Singularly Perturbed Differential Equations - M. I. Markechko	1180	1698
Approximating Subsystems of a Dynamical System of Translations - A. I. Panasyuk	1186	1705
Stochastic Functional-Differential Equations with Respect to Martingales - A. E. Rodkina	1195	1716
Pseudolinear Matrix Bundles and Systems of Linear Differential Equations with Meromorphic Coefficients - V. V. Sergeichuk	1201	1721
Hypergeometric Series and Fuchsian Systems - Kh. A. Chikhanov	1207	1727
PARTIAL DIFFERENTIAL EQUATIONS		
Periodic Solutions of Some Inhomogeneous Evolution Differential Equations on Riemann Manifolds - A. B. Antonevich and Khoi Khan' Dang	1211	1731
Uniqueness of Solutions of Boundary-Value Problems for Scattering by Multiple Periodic Potentials - V. F. Badyukov	1216	1736
Boundary-Value Problems in Elasticity Theory with Concentrated Singularities - T. V. Buchukuri and T. G. Gegelia	1226	1746

	Engl./Russ.	
Finite-Difference Method of Solving a Class of Hyperbolic Equations with an Order Degeneration - R. I. Semerdzhieva	1235	1755
Second Boundary-Value Problem for Elliptic Differential-Difference Equations - A. L. Skubachevskii and E. L. Tsvetkov	1245	1766
INTEGRAL AND INTEGRODIFFERENTIAL EQUATIONS		
Discrete Convolution Equations with Monotonic Nonlinearities - S. N. Askhabov and I. K. Karapetyants	1255	1777
Boundary-Value Problems on a Half-Line for a Class of Integrodifferential Equations - V. V. Vlasov	1262	1784
Bounded and Almost-Periodic Solutions of Linear Integral Equations. I - V. F. Pulyaev	1265	1787
Asymptotic Regularization of Integral Operators of the First Kind with Power Singularities - V. A. Strizhkov	1275	1798

Volume 25, Number 11, November, 1989

ORDINARY DIFFERENTIAL EQUATIONS		
Solvability of Boundary-Value Problems for Functional-Differential Equations with Lipschitz Nonlinearities - A. R. Abdullaev	1283	1843
Stability of Some Control Systems with Aftereffect - I. M. Anan'evskii and V. B. Kolmanovskii	1287	1848
General Method of Finding Solutions, with Components Having Infinite Limit Values, of Autonomous Differential Systems with Rational Right Sides - T. S. Bud'ko and A. I. Yablonskii	1291	1852
Solution of the Center-"In-The-Large" Problem for a General Quadratic Differential System - Bularas Driss, N. I. Vulpe, and K. S. Sibirskii	1294	1856
Boundedness of the Number of Orthogonal Solutions of the Equation $-u'' + q(x)u = \lambda u$ - V. E. Volkov	1300	1862
Structure of Solutions of a Periodic Pfaffian System Whose Characterisic Equation has Two Purely Imaginary Roots - É. I. Grudo	1304	1867
Some Application of the Theory of Abstract Functional-Differential Equations. I - G. G. Islamov	1309	1872
Spectral Function of a Second-Order Functional-Differential Operator - É. Kadelburg and M. Martinovich	1317	1882
A Pontryagin Problem - A. Yu. Kolesov and E. F. Mishchenko	1323	1888
Optimal Solution of Operational Equations when the Original Data is Finite Dimensional - V. L. Kolyadin and V. F. Kravchenko	1326	1891
Differential Equations with Deviating Arguments, with Properties A and B - R. G. Koplatadze	1332	1897
Limit Sets of Trajectories of Dynamical Polysystems - N. N. Petrov and I. S. Khan	1342	1910
Theory of Reducibile Ito Functional-Differential Equations - A. V. Ponosov	1347	1915
Nonlinear Differential Equations in the Class of Functions of Bounded Variation - A. N. Sesekin	1356	1925
Irreducibility of a Schrödinger Equation with a Quasiperiodic Potential - Yu. B. Suris	1362	1932
New Formulas for an Approximate Solution of the One-Dimensional Wave Equation - N. E. Tsapenko	1370	1941
PARTIAL DIFFERENTIAL EQUATIONS		
Controllability of Systems with Distributed Parameters, Described by m-th Order Goursat–Darboux Systems - P. Burgmaier	1375	1947

	Engl./Russ.	
Basis Property of Systems of Eigenfunctions and Associated Functions of Nonself-Adjoint Operators, and the Integrability of Lax-Representation Associated Nonlinear Evolution Equations. I - V. A. Il'in, K. V. Mal'kov, and E. I. Moiseev	1383	1956
Regularization of Variational Inequalities with Pseudomonotonic Operators on Approximately Given Domains - O. A. Liskovets	1395	1970
Boundary-Value Problems for Singular and Nonsingular Hyperbolic Systems - V. A. Malovichko	1402	1977
Solvability of a First Mixed Boundary-Value Problem for a Second-Order Parabolic Equation with Discontinuous Coefficients - V. M. Mirzoev	1406	1981
Wave Diffraction by a Three-Axis Ellipsolid - M. V. Fedoryuk	1414	1990

Volume 25, Number 12, December, 1989

PEOPLE OF SOVIET SCIENCE		
Aleksandr Andreevich Samarskii (on his 70th birthday) - A. A. Arsen'ev, A. V. Bitsadze, A. A. Dorodnitsyn, S. V. Emel'yanov, N. P. Erugin, V. A. Il'in, S. P. Kurdyumov, and A. N. Tikhonov	1419	2027
ORDINARY DIFFERENTIAL EQUATIONS		
Solvability of Boundary-Value Problems in the Case of Resonance - A. R. Abdullaev and A. B. Burmistrova	1439	2044
Towards a Theory of the Maximum Principle for Problems with Delays - A. V. Arutyunov and M. Dzh. Mardanov	1443	2048
Asymptotic Stability Criteria for Systems of Differential Equations with Periodic Coefficients - N. E. Barabanov	1453	2059
Nonlinear Boundary-Value Problem with Solution Breaks - S. A. Brykalov	1459	2066
Investigation of the Solvability of a Certain Class of Boundary-Value Problems with Free Boundary - S. A. Vavilov	1467	2075
Estimates of Solutions of Systems of Nonlinear Diffusion Equations - M. I. Gil'	1472	2082
Asymptotic and Oscillational Properties of First Order Linear Scalar Functional-Differential Equations - S. A. Gusarenko and A. I. Domoshnitskii	1480	2090
Asymptotic Behavior of Solutions of a Lorentz System - G. A. Leonov	1492	2103
Simple Systems and Periodic Solutions of Differential Equations - V. I. Mironenko	1498	2109
Conditions for an n-th Order Equation to be Dissipative - B. N. Skackov	1502	2114
Existence of an Averaged Differential Inclusion - O. P. Filatov	1505	2118
PARTIAL DIFFERENTIAL EQUATIONS		
Asymptotic Approximation of the Solution of a Singularly Perturbed Parabolic Two-Dimensional Problem with a Nonsmooth Limit Solution - V. F. Butuzov and V. Yu. Buchnev	1514	2128
Basis Property of the System of Root Functions of Nonselfadjoint Operators and the Integrability of the Nonlinear Evolution Equations, Associated through the Lax Representation. II - V. A. Il'in, K. V. Mal'kov, and E. I. Moiseev	1518	2133
Boundary Value Problems and Properties of Solutions for Equations of the Third Order - A. I. Kozhanov	1528	2143
Existence and Uniqueness of the Solution of a Singular Problem from the Mathematical Theory of Diffractions - F. G. Mukhlisov	1538	2154
Inverse Boundary-Value Problem for a Nonlinear Navier–Stokes System with Finite Overdetermination - A. I. Prilepko and I. A. Vasin	1547	2164
